

Work in Progress

MATTAPAN STATION

IMPROVEMENT PROJECT

MBTA COMMUNITY MEETING

PROJECT OVERVIEW

- The project is funded under the Federal Economic Stimulus Program (ARRA).
- Four existing bus and trolley passenger shelters will be replaced with larger, more accessible shelters that provide substantially improved weather protection.
- Each shelter will be provided with three heater units and additional benches.
- The existing mini-high platform will be provided with improved weather protection and heating
- The existing AFC shelter will be replaced.
- The paved busway will be rehabilitated
- Additional station signage and customer information will be provided.

SCHEDULE

- Final Community meeting to be held in early June 2011
- 100% complete design will be circulated for review in May/June 2011.
- Project will be constructed by MBTA Design & Construction with Gilbane oversight.
- Construction scheduled for completion by late 2011.
